

LIVING OUR VALUES

CleanEarth™

Clean Earth's ESG Achievements

We are proud of the progress we've made toward our environmental, social, and governance goals, as we continue to deliver one of the largest networks of treatment, recycling, and sustainability solutions.

NAVIGATING COMPLEX ENVIRONMENTAL CHALLENGES

PFAS TECHNOLOGY

Clean Earth is collaborating with several PFAS technology partners to trial advanced remediation methods to develop effective treatment systems that maximize PFAS destruction.

KEY PARTNERSHIPS

Clean Earth announced a five-year agreement with Veolia North America, guaranteeing access to its new state-of-the-art Gum Springs, Arkansas incineration facility, scheduled to open in late 2025.

ON-SITE SOLUTIONS

Clean Earth expanded its on-site services to more customers, leading to better waste segregation and handling while minimizing hazards and negative environmental impacts.
