

LIVING OUR VALUES

Harsco Rail's ESG Achievements

We are proud of the progress we've made toward our environmental, social, and governance goals, which have driven safety and innovation across our operations.

~895,500

railroad ties replaced

Our P811 team in India replaced railroad ties for over 480 kilometers of track leveraging our P811 Track Renewal System.

~154,000

kilowatts of electricity saved annually

At our 150,000 sq. ft. facility in Ludington, Michigan, we upgraded all overhead lighting by replacing T8 lamps with LED lights, improving energy efficiency.

~150

switch points refurbished and recycled, reducing waste and switch lifespan

98%

machine availability level kept by our Saudi Arabia Rail Grinding operation

Read more about our sustainability ambitions and achievements in Enviri's ESG Report.
